The Bar Council Legal Tech, AI, and Sandbox Committee invites Members of the Bar to an insightful seminar titled "Artificial Intelligence – Who? Which? What? When? Why? Where? How?" This seminar will highlight the significant impact of artificial intelligence ("AI") in the legal profession, a valuable opportunity for legal professionals to understand the basics of AI and see how these technologies are being applied in real-world legal settings. Join us to stay informed in the fast-changing digital landscape and learn to navigate AI in your legal work effectively.

Speaker

Gaythri Raman is the Managing Director of LexisNexis Southeast Asia, responsible for the adoption of online solutions for the litigation, corporate and government segments across Southeast Asia. She is a strong advocate for the transformation of legal business by leveraging legal innovations to make meaningful impact. Her vision has led the way in the legal industry in Southeast Asia. Gaythri's appreciation for the rule of law and its significance in empowering individuals and improving access to justice has been a driving force throughout her career. She believes that technology can be the powerful enabler to advance the rule of law by enhancing legal literacy and improving transparency of the law.

Isaac Tan is the co-founder and Chief Technology Officer ("CTO") of SUPA, a company at the forefront of AI infrastructure development. With a mission to democratise and accelerate AI adoption, SUPA has empowered world-class companies to build frontier AI solutions across diverse sectors, including autonomous driving, precision agriculture, and advanced safety inspections. A passionate advocate for open-source technology, Isaac actively contributes to various AI projects, fostering collaboration and knowledge sharing within the global tech community.

Beyond his professional pursuits, he finds balance and inspiration through tennis and rock climbing, activities that complement his problem-solving skills and adventurous spirit.
